#### Dinner in the sky

(fragmenty tekstu: „Oxford repetytorium ósmoklasisty” Atena Juszko, Jenny Quintana.

Does dinner in a restaurant sound boring? If you want to try something different, how about eating meal while hanging in the air?

Dinner in the sky started in Belgium over ten years ago and is now famous all over the world. The event has taken place in 45 countries. Each time, 22 **participants**, two **serves** and one famous **chef** are lifted 50 metres above the ground. During the 90- minutes event, the chef prepares a meal for participants, and they are enjoying amazing views.

I like trying new things, so when my friend Michelle won tickets for the event and invited me , I said ...yes...even though I have a **fear of heights**.

I was sitting on a special seat with a **seatbelts** but I was shaking. When we were going up , I could feel the wind blowing on my face and hair, which made me feel more nervous. It was hard to enjoy my food (which looked beautiful) because my **stomach** was hurting. I couldn't wait to be back on the ground.

Michelle had a great time: „the food was very tasty, and the views were beautiful” she said later. So if you are not scared of eating dinner 50 metres over the ground you will enjoy it.
